

WEB SITE DESIGN CERTIFICATE PROGRAM

Web Site Design

The website design certificate provides students with the technical and aesthetic skill sets needed to conceptualize, create, produce and maintain a set of web pages.

Program Outcomes

Successful graduates will be able to:

- create professional quality web sites that comply with current web standards;
- demonstrate knowledge and skills of database principles and apply them to developing relational databases and generating simple and complex reports;
- apply principles of design and typography to the processes employed in the graphic design, illustration and web design industries;
- demonstrate the ability to present and critique concepts and designs;
- communicate effectively using oral and written techniques; and
- explore pathways for educational and career development in the student's field of study.

Total credits: 28
