

Dear Prospective CCV Student:

As a student enrolled full or part time in a health science program at CCV, you will be subject to the Vermont Immunization Law. The intent of this law is to ensure that all Vermonters are protected from vaccine preventable diseases. Health science programs include: Allied Health Preparation, Clinical Laboratory Assistant, Massage Therapy and Bodywork, and Medical Assistant.

You will be required to provide CCV with documentation that you have received these immunizations:

A form to help with this can be found at:

http://healthvermont.gov/hc/imm/documents/IZ_CollegePostSecondary_ImmRecord.pdf

- **Tdap (*Tetanus, Diphtheria, and Pertussis*) vaccine or Td (*Tetanus and Diphtheria*) vaccine** within the past 10 years – 1 dose
- **MMR (*measles, mumps, and rubella*) vaccine** – 2 doses. *You may substitute documentation of Positive Titer tests.*
- **Hepatitis B vaccine** – 3 doses. *You may substitute documentation of Positive Titer test*
- **Varicella (*Chickenpox*) vaccine** – 2 doses. *You may substitute documentation indicating a history of disease; this form can be found at:*
http://healthvermont.gov/hc/imm/documents/IZ_varicelladocumentation_020808.pdf

Acceptable documentation can be supplied by any **one of the following:**

- An official school record from any school listing the individual immunizations and the complete date the immunization was administered.
- A record from any public health department listing the individual immunizations and the complete date the immunization was administered.
- A certificate signed by a physician, nurse practitioner, or physician assistant listing the individual immunizations and the complete date the immunization was administered.
- A record from an Immunization Registry listing the individual immunizations and the complete date's immunization was administered.
- A laboratory report of a titer indicating evidence of immunity to a specific disease.

If you do not have any of the documentation listed above:

- Ask your parents or other family members to check their record of childhood immunizations
- Check with the school you last attended.
High schools have to keep medical records for 9 years, so this may be your best source.
- Schedule an appointment with your primary care provider as soon as possible to assure you get the required immunizations or laboratory report.
- If you do not currently have a primary care provider, you can access a list of Federally Qualified Health Centers in your area that provide low-cost or free immunizations:
http://www.bistatepca.org/vthc_listing.htm

If you have any questions about this requirement at CCV, please contact Linda Schlott at Linda.Schlott@ccv.edu or call (802) 828-3024. You can also fax immunization documentation to (802) 828-2805. Thank you.

Sincerely,

Heather Weinstein
Director, Student Support Services
