

ACCOUNTING (A.S.)

CCV's Accounting program prepares you for entry-level positions in a variety of settings. It allows you to transfer to a bachelor's degree program or may be the first step in pursuing CPA licensure. In addition to taking courses in accounting, you will gain a broader knowledge of the business environment by studying technology, communication and management. If you are interested in Vermont's licensing requirements for accounting, visit www.vermont.gov for more information.

PROGRAM REQUIREMENTS

- ACC-2121 - Financial Accounting (4 cr)

ACCOUNTING (A.S.)

Accounting Program Outcomes

Successful graduates will be able to:

- identify and explain the fundamental principles and concepts upon which accounting is based;
- apply fundamental accounting principles and concepts to specific accounting and reporting issues;
- identify the agencies and organizations within the accounting profession established to evaluate and promulgate accounting principles;
- analyze and prepare accurate financial statements;
- demonstrate academic skills required of all CCV graduates, including competency in writing, information literacy, oral communication, and quantitative reasoning; and
- identify their career and transfer options and assume a professional role in the workplace.

How Our Degree Works

CCV's Accounting program combines both theoretical and practical education in this high-demand field. The core accounting courses provide a solid foundation upon which you will build additional accounting and business skills. You are also required to complete courses in business law, technical accounting and general management. The end result is a well-rounded accounting and business education that includes both traditional and contemporary theory and practice. Our accounting faculty bring the best of both worlds to you—a strong commitment to student success coupled with years of practical experience in everything from financial management to forensic accounting.

Why Our Degree Works

Our Associate of Science degree in Accounting has a proven record of preparing students for advanced studies in accounting and employment in business and industry. Ninety-five percent of our 2001 to 2005 graduates report that they are either employed or continuing their studies at a four-year college.

Career Opportunities

Students often find employment in the financial and accounting world in a wide variety of industries. Graduates of the program report that they are employed as accountants, bookkeepers, tax preparers, accounting supervisors, accounts payable and receivable clerks and payroll accountants. Careers in sales, supervision, management, retail and food service have also been reported by graduates of the program.

Transfer Options

Our transfer agreements make it possible to transfer easily to a number of four-year colleges including:

- Castleton State College
- Champlain College
- Johnson State College
- Lyndon State College
- Vermont Technical College

CCV graduates also report attending Norwich University, Franklin Pierce College and SUNY-Plattsburgh, Southern New Hampshire University and University of Vermont.

"CCV was a great starting point. CCV instructors don't just teach – they also help. As a result, I was very prepared for both my bachelor's program and graduate courses, as well as for my career."

*– Cynthia Borck
Executive Vice President,
Union Bank, Morrisville, VT*
